Overview

DAABON ORGANIC

- DAABON is a family owned and managed company, built on the passion and commitment of three generations of the Davila family.
- DAABON Group is a specialized organic grower located in the Northern region of Santa Marta in Colombia.
- We own and operate organic palm tree plantations, a crude palm oil extraction factory and a palm oil refinery.
- We established new soap and glycerin plant and started production in 2011.
- In addition we also own organic: banana, coffee and cocoa plantations.

FACTS

- First (and only) Colombian producer of soap manufactured from RSPO palm oil.
- Our production site is based on a sustainable “Industry symbiotic” cluster that minimizes natural resource usage and disposals and maximizes relations between each established company: I.e. steam production, sub products, energy.
- Our products and processes are vertically integrated and fully traceable.

SUSTAINABILITY

- DAABON Group is a member of the Roundtable on Sustainable Palm Oil and a certified grower.
- Our refinery, soap factory and oil terminal is RSPO SCCS certified supply chain.
- We are one of the only global suppliers of organic and fully identity-preserved palm oil products (RSPO/IP).

CERTIFICATIONS

- We believe in the third party certifications as a mechanism to ensure our customers of our compliance with strict international social and environmental standards.

BRANDS

- Our own brands are ORGANIC MOUNTAIN® and Fresh Press®.

ORGANIC MOUNTAIN® :

Fresh Press®. :

Products

Organic & Sustainable Translucent Soap Base:
25kg/750kg/1000kg

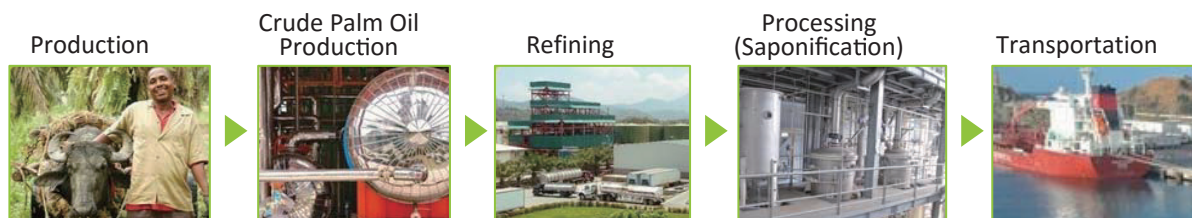

Organic & Sustainable Opaque Soap Base:
25kg/750kg/1000kg

Organic & Sustainable Glycerin:
75kg/200kg/900kg

- Certified by Ecocert, RSPO, Kosher and NOP
- Suitable for high quality organic soap bars for the natural cosmetics market
- Made by saponification of 100% certified organic and sustainable palm oil and palm kernel oil
- No EDTA, EHDP and BHT used
- Fully traceable and Identity Preserved

SUPPLY CHAIN

Product is delivered to the client with traceability from crop to delivery.

Daabon Group has 4 beautiful organic palm plantations located on the western slopes of the Santa Marta mountain range. The climatic conditions, wide availability of pure and non contaminated water flowing down from the snow peaks to the farms and year long extended sun light are ideal for palm fruit production. Daabon is the only company in the world that has vertically integrated the palm oil production from seeder to farming, harvesting, mechanical pressing, physical refinery and finally to end products such as RBD, Stearin, Shortenings, Olein, Kernel oils, Margarine, Soap base and byproducts such as Kernel cake and vegetable residues for compost making at its own facilities.

Today Daabon owns 4424 ha. of organic certified palm plantations, and it is sponsoring the development of an additional 2,000 ha. owned by cooperatives of small farmers, most of which are now certified as well. This is another important project of great social impact in the region where Daabon is committed to improve the living conditions of the local communities.

Specs

Organic & Sustainable Translucent Soap Base

INCI Name: Organic Sodium Palmate/Organic Sodium Palm Kernelate/Water/Organic Glycerin.

Code	Parameter	Limit
2-002	Moisture and volatile matter, %	: 18% max
2-004	Chlorides, as NaCl %	: 0.8 max
2-005	Free alkali, as NaOH %	: 0.05% max
2-014-B	Anhydrous Soap, %	: 72% min
2-017	Organic Glycerin, %	: 5% - 8%

ECOCERT Certificate for Natural and Organic Cosmetics:
99.9% natural origin; 75.1% Organic

Organic & Sustainable Opaque Soap Base

INCI Name: Organic Sodium Palmate/Organic Sodium Palm Kernelate/Water.

Technique	Parameter	Limit
2-002	Moisture and volatile matter, %	: 14% max
2-004	Chlorides, as NaCl %	: 0.8 max
2-005	Free alkali, as NaOH %	: 0.05% max
2-014-B	Anhydrous soap, %	: 82% min

ECOCERT Certificate for Natural and Organic Cosmetics:
99.9% natural origin; 85.9% Organic

Organic & Sustainable Glycerin

Parameter	Limit
Purity	: 99.5% min
Specific gravity, 25 °C	: 1.2607 min
Residue on Ignition	: 0.01% Max.
Chloride	: 0.001% Max.
Sulfate	: 0.002% Max.
Arsenic	: 0.00015% Max.
Heavy metals	: 0.0005% Max.
Chlorinated compounds	: 0.003% of Cl max.
Fatty acids and esters	: 1 ml NaOH 0.5 N Max.
